METHOD OF ESTABLISHMENT: County:

IN. S.P.C. E ZONE, NAD 83
NAME: 14050505
N: 493072.9544(m)
E: 71472.2060(m)

THIS CORNER POSITION REPRESENTS A "TITLE" CORNER AND MAY NOT NECESSARILY REPRESENT THE POSITION BASED ON RECORD CORNERS.

INDEX 5-14-5

History: Center of 5-14-5 set by Wm. Smith 3-10 & 11-1866. Smith set as follows: "Found the corner 'E' which is the center of section by measuring from 'B' (the east quarter corner) to 'A' (the west quarter corner) and setting the corner in the center...I qualified men to place stones at all the corners marked in the plat by letters" (p. 33, Franklin Township Legal Survey Book). A search in 2001 by the county surveyor's office for the stone set at the center of section found no evidence of a stone. The area is a plowed field and has been as shown by 1937 aerial photographs. Therefore, in following Smith's description of his method of establishment, the center was re-established at the mid point of the line from the east to west quarter section corners. No monument was set or references made due to its location.
